FEATURE | FUNCTION | BENEFIT

GOOSENECK HORSE TRAILER | MODEL 9752

FEATURE	FUNCTION	BENEFIT
All-Aluminum Construction	Featherlites are made with an all-aluminum frame and skin.	With just routine maintenance, aluminum construction has higher resistance to rust and corrosion and in the long run, they hold their value longer. It's also lighter weight, increasing your payload capacity and making for a smoother tow.
Uni-Body Design	All components of the Featherlite trailer from side posts to roof rails to roof bows to cross members are engineered into a uni-body design.	The uni-body design makes the trailer stronger and more durable for the long haul.
White Lining	White lining on walls above rubber & up to ceiling are standard.	White lining creates a brighter interior for horses during loading & travel, keeping them calmer. It also gives the trailer a cleaner, more eye-appealing interior.
Light 'Flo' Drop Down Feed Doors	One Light 'Flo' drop down feed door in front of each horse is standard.	Featherlite's Light 'Flo' drop down feed doors allow up to 90% more airflow and light into the horse area, helping keep horses more calm and relaxed while loading and traveling. With their lowered handle, they are also easier to operate.
Aluminum Wheels	Four high-quality, polished aluminum wheels are standard.	These impressive aluminum wheels allow your trailer to retain its factory appearance longer and help your Featherlite trailer retain its value over the long haul.
3/4" Rubber Floor Mats	3/4" rubber floor mats are standard in the horse area.	The thickness of Featherlite's floor mats give horses the greatest amount of comfort and stability during travel, reducing stress and potential injury to the horse.

FOR FULL ARRAY OF FLOORPLANS, VISIT WWW.FTHR.COM.

*10-year limited structural warranty on frame and superstructure. 3-year limited warranty on all other parts manufactured and installed by Featherlite. Some exclusions apply. Ask dealer for details. **Trailer may be shown with options.
